International Conference on Data-Processing and Networking (ICDPN-2026)

Date: 25th -26th September, 2026

ORGANISED BY : Institute of Technology and Business in České Budějovice, Near Prague, Czech Republic, Europe (Venue).

********** CALL FOR PAPERS **********

SPECIAL SESSION ON
Artificial Intelligence and Deep Learning

SESSION ORGANIZERS:
[Prof. (Dr.) Pooja Sharma, Director Alpha, Rayat Bahra University, India, Director.alpha@rayatbahrauniversity.edu.in
Er. Narinder Kumar, Assistant Professor, Rayat Bahra University, India, Narinder.19159@rayatbahrauniversity.edu.in
Dr. Anita Goyal, Associate Professor, Rayat Bahra University, India, anita.goyal@rayatbahrauniversity.edu.in]

EDITORIAL BOARD: (Optional)
[Name, University or Organization, Country, e-mail]

SESSION DESCRIPTION:
The rapidly developing fields of artificial intelligence (AI) and deep learning, which are changing how intelligent systems are created, implemented, and scaled across sectors, are the major topic of this special session. Deep learning techniques, which allow computers to understand intricate patterns, make precise predictions, and automate decision-making processes, have become a fundamental component of contemporary AI due to the exponential rise of data and processing capacity.

In addition to advanced deep learning architectures like Convolutional Neural Networks (CNNs), Recurrent Neural Networks (RNNs), Long Short-Term Memory (LSTM) networks, Generative Adversarial Networks (GANs), and Transformer-based models, the session will cover fundamental approaches like supervised, unsupervised, and reinforcement learning. Their practical use in fields including computer vision, speech recognition, natural language processing, and autonomous systems will be highlighted.

The overall goal of this session is to give researchers, academics, and business experts a thorough platform to share ideas, showcase breakthroughs, and investigate potential future paths in AI and Deep Learning, opening the door to more responsible, intelligent, and adaptable technology.

RECOMMENDED TOPICS:
Topics to be discussed in this special session include (but are not limited to) the following:

Edit with WPS Office

- Neural Network Architectures and Optimization Methods
- Deep Learning Models: CNNs, RNNs, LSTMs, GANs, and Transformers
- Transfer Learning and Pre-trained Models
- Explainable AI (XAI) and Model Interpretability
- Natural Language Processing (NLP) using Deep Learning
- Computer Vision and Image Processing Applications
- Speech Recognition and Audio Processing
- AI for Big Data Analytics and Decision-Making
- Edge AI and Real-Time Intelligent Systems
- AI in Healthcare, Agriculture, Finance, and Smart Cities
- Autonomous Systems and Robotics using Deep Learning
- AI for Cybersecurity and Threat Detection
- Federated Learning and Privacy-Preserving AI
- Ethical, Legal, and Social Implications of AI
- Energy-Efficient and Green AI Techniques
- Hybrid AI Models and Multimodal Learning
- Scalability and Deployment of AI Models in Production
- Advances in Generative AI and Foundation Models

SUBMISSION PROCEDURE:

Researchers and practitioners are invited to submit papers for this special theme session on **[AI-Driven Network Traffic Prediction and Optimization]** ***on or before*** **[3oth JULY 2026]**. All submissions must be original and may not be under review by another publication. INTERESTED AUTHORS SHOULD CONSULT THE CONFERENCE'S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at **https://www.icdpn-conf.com/Downloads**. All submitted papers will be reviewed on a double-blind, peer review basis.

NOTE: While submitting paper in this special session, please specify [**AI-Driven Network Traffic Prediction and Optimization**] at the top (above paper title) of the first page of your paper.
