International Conference on Data-Processing and Networking (ICDPN-2026)

Date: 25th -26th September, 2026

ORGANISED BY : Institute of Technology and Business in České Budějovice, Near Prague, Czech Republic, Europe (Venue).

********** CALL FOR PAPERS **********

SPECIAL SESSION ON

Quantitative modeling of systemic and supply chain risk

SESSION ORGANIZERS:

Dr. Deepak Sharma, Associate Director, Department of Distance and Continuing Education, School of Open Learning/Campus of Open Learning, North Campus, University of Delhi, deepak1086j@gmail.com

Aamiruddin syed, Lead Security Engineer, Agco Corporation, USA
Sydefcon5@gmail.com

EDITORIAL BOARD: (Optional)

Dr. Deepak Sharma, Associate Director, Department of Distance and Continuing Education, School of Open Learning/Campus of Open Learning, North Campus, University of Delhi, deepak1086j@gmail.com

SESSION DESCRIPTION:

This special session of ICDAM 2026 is focused on recent **Quantitative modeling of systemic and supply chain risk**, covering a wide range of topics, from tool development to social and human factors. We invite submissions of original and innovative research papers, as well as practical or industrial experience reports, in empirical engineering. The objective of this special section is to share new and innovative contributions, the strengths and weaknesses of technologies in use, and new technologies, as well as original or replicated studies varying from controlled experiments to field studies and from quantitative to qualitative analyses.

RECOMMENDED TOPICS:

Topics to be discussed in this special session include (but are not limited to) the following:

- **Quantifying cascading failures using complex network theory**
- **Modeling interdependent supply networks and risk propagation**
- **Identification of critical nodes (systemically important firms) in supply chains**
- **Supply chain rewiring strategies to minimize systemic risk**
- **Firm-level risk contribution modeling using production networks**
- **Centrality-based risk metrics (degree, betweenness, eigenvector)**
- **Measuring resilience and recovery capacity quantitatively**
- **Multi-layer risk indices combining financial + operational risks**

Edit with WPS Office

SUBMISSION PROCEDURE:

Researchers and practitioners are invited to submit papers for this special theme session on **Quantitative modeling of systemic and supply chain risk** ***on or before*** **3oth JULY 2026**. All submissions must be original and may not be under review by another publication. INTERESTED AUTHORS SHOULD CONSULT THE CONFERENCE'S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at **https://www.icdpn-conf.com/Downloads**. All submitted papers will be reviewed on a double-blind, peer review basis.

NOTE: While submitting paper in this special session, please specify [**Quantitative modeling of systemic and supply chain risk**] at the top (above paper title) of the first page of your paper.
