SESSION DESCRIPTION:

The rapid growth of data-intensive applications has created unprecedented opportunities and challenges in computing, analytics, and networked systems. This special session aims to provide a platform for researchers, academicians, and industry practitioners to present and discuss recent advances, innovative methodologies, and emerging trends in data-intensive computing, intelligent analytics, and advanced networking technologies.

The session will focus on scalable data processing, artificial intelligence and machine learning-driven analytics, distributed and cloud-edge computing, and intelligent networked infrastructures. It seeks to foster interdisciplinary research and facilitate the exchange of ideas that contribute to the development of efficient, secure, and intelligent data-driven systems for next-generation applications.

RECOMMENDED TOPICS:

Topics to be discussed in this special session include (but are not limited to) the following:

- Data-Intensive Computing and Scalable Data Processing
- Artificial Intelligence and Intelligent Analytics
- Cloud, Edge, and Distributed Computing Systems
- Advanced Networked Systems and Communication Technologies
- Secure, Privacy-Preserving, and Trustworthy Data Systems
- Intelligent Applications for Smart and Connected Environments

SUBMISSION PROCEDURE:

Researchers and practitioners are invited to submit papers for this special theme session on **“Emerging Paradigms in Intelligent Data Processing, Analytics, and Networked Computing for Next-Generation Digital Systems” on or before [30th JULY 2026]**. All submissions must be original and may not be under review by another publication. INTERESTED AUTHORS SHOULD

CONSULT THE CONFERENCE'S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at <https://www.icdpn-conf.com/Downloads>. All submitted papers will be reviewed on a double-blind, peer review basis.

NOTE: While submitting paper in this special session, please specify “**Emerging Paradigms in Intelligent Data Processing, Analytics, and Networked Computing for Next-Generation Digital Systems**” at the top (above paper title) of the first page of your paper.
